

alt: mini portrait session

The Mini Session Breakdown

An **alt: mini portrait session** is an opportunity to have portraits done at a less expensive cost than a regular portrait session. The reason it is less expensive is that clients sign-up for a time with Aften at a set location with set props.

What's Included

30 Minute Session

- + 1 Wardrobe
- + 1 Scene

Each session includes prep time & actual shooting time. Prep time includes: setting up scenes, getting to know the child/family so everyone feels comfortable. About a third of every session is prep time.

Online Gallery

10-20 unedited photos will be placed in an online gallery at aftenonline.com, so that you can choose the 3 photos you want edited. All photos in the online gallery will be downsized and watermarked with my logo. The online gallery will expire 3 months after the photo session.

Editing

The 3 chosen photos will then be custom edited to give you the most beautiful portraits possible. The software used in this process is top of the line.

Photo CD & Prints

The edited photos will then be placed on a cd-rom and you will also get 3 – 4x6 inch prints. Both the photo cd and the prints will be mailed to you within 3 weeks of the mini session.

The Cost

\$75 at the time of the session

An additional \$10/Image will be required if more than 3 images are desired.

More prints can be purchased as well - just talk to Aften for more details.
